

THERE IS MANY REASONS THAT USING CELL PHONES INFLIGHT IS A VERY BAD IDEA. IT WOULD MAKE IT MUCH EASIER FOR TERRORIST TO TRACK AN AIRCRAFT AND CORRDATE AN ATTACK.

ALSO, JUST WITH THE ABILITY TO USE CELL PHONES ON THE TAXI-WAY AFTER LANDING; IT VERY DIFFICULT TO MAKE ANNOUNCEMENTS WITH PEOPLE TALKING VERY LOUD SO THEY CAN BE HEARD. I CAN ONLY IMAGINE USING CELL PHONES IN FLIGHT. JUST YESTERDAY I HAD A GENTLEMAN ONBOARD WHO WAS WATCHING A MOVIE ON HIS LAPTOP, THE VOLUME WAS TURNED UP AND EVERYONE AROUND HIM WAS ANNOYED BECAUSE OF THE NOISE. HE TURNED IT OFF WHEN I ASKED HIM TO. BUT IF A PERSON WAS ON A CELL PHONE AND THE PERSON NEXT TO HIM WAS ON A CELL PHONE, TOO, IT WOULD NOT BE LONG BEFPRE IT WOULD BE IMPOSSIBLE TO KEEP PEACE.

IN THE EVENT OF AN EMERGENCY IT WOULD BE IMPOSSIBLE TO BE HEARD. IT IS REQUIRED THAT CELL PHONES BE TURNED OFF IN MOVIE THEATERS, IN CHURCHES, AND MANY OTHER PLACES AND THESE PEOPLE ARE NOT AS CONFINED AS ON AN AIRCRAFT.
